Company Profile

Zhangzhou Jiansheng Furniture Co., Ltd., founded in 2005, specializes in school furniture developing & marketing. With two factories and one domestic brand marketing company, Jian Sheng Furniture covers an area of about 57,000 m², employing over 200 staff. Its brand L.DOCTOR is well known in the global market. Upon the good quality and service, L.DOCTOR is winning increasing government school projects home and abroad. Its monthly production capacity is about 100 * 40HQ, exporting to Saudi Arabia, UAE, Kuwait, Oman, Israel, Qatar, Bahrain, Yemen, Sudan, Libya, Egypt, Namibia, Zambia, Ghana, the Dominican Republic, Venezuela, Panama, Cuba, Costa Rica, Australia, Britain, France, Italy, Portugal, Latvia, Russia, India, Indonesia, Malaysia, South Korea ...

Meanwhile, Jiansheng Furniture's brother company, Hongye Furniture produces the series of family health ergonomic study desks and chairs. In China, we have our own's brand called "ISTUDY" since 2011. In March 2012, we opened the first "ISTUDY" brand chain store. And till the March 2015, "ISTUDY" brand chain store reaches 400 globally.

Our goal is to become China's largest school furniture factory. To achieve this goal, we try our best to innovate of our ideas and make our company grow up with introduction of ERP system, established a perfect production management system of our company. During our company is search a good way to develop our-self, we also do not forget to strengthen the training & feedback to our staff regularly. We also held activities for our employees in China's traditional festival that can improve our staff's cohesive force and the sense of belonging.

You are welcome to visit our company! We hope to win-win cooperation with your esteemed company.

L.DOCTOR Height adjustable and collaborative school desks

Collaborative school desks or round tables have become a popular standard in K-12 education. Get your classroom up to speed with this extensive collection of classroom desks that encourage teamwork in the education environment. Collaborative learning school desks are designed for group study and project work. Creating a round table with the collaborative school desks are perfect for collaborative learning and creating circular groups or islands of student desks as elementary school desks. Create half circles of student desks with no gaps so all students are facing forward. No more unsightly clusters of open front desks! L.DOCTOR also provides a wide variety of color combinations.

Safety for kids, all round shaped corners prevent any potential collisions when playing and learning. And the E1 standard board makes the pollution of formaldehyde emissions 0.5mg/L to less than or equal to grade environment-friendly material, harmless to the human body. E1 grade particle board is used.

Colorful options create a happy and effective learning environment for kids in kindergartens. Robustness of table and chair legs provides the safety environment as well.

If you want us to do the layout of your labs, just send the size of your classroom and your requirements on the courses.

We understand that dormitories are a home away from home for boarding school students, who must feel comfortable in their surroundings. It is important for furniture in bedrooms to offer an appropriate place to concentrate on work and also relax. L.DOCTOR has been designing products which are attractive, durable and extremely practical for the needs of students.

We also appreciate that in some instances space is at a premium, therefore we have incorporated practical storage solutions into our furniture range to offer the greatest amount of cupboard/drawer/shelf space, whilst at the same time utilizing the room layout effectively and maximizing free floor space.

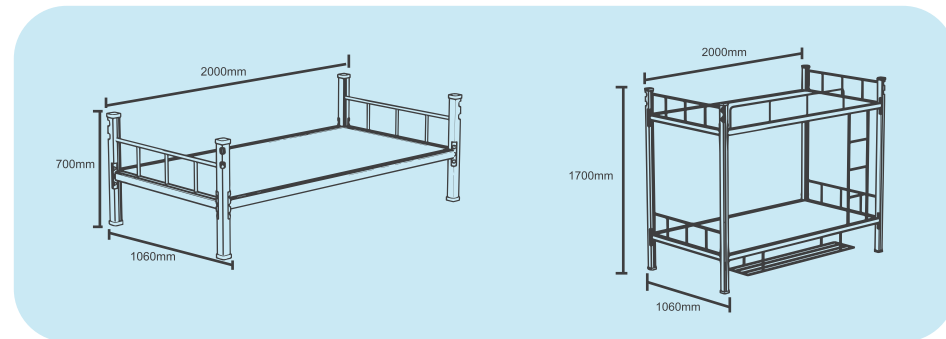

You can ask for any customized design to suit your local schools.
