PRODUCT FEATURE ICONS

Our product design teams are always on the prowl for problems to solve based on real-world feedback from our customers worldwide. As a result, YALIDA®, AS511®, YALEADER® products are loaded with features inspired by operator experience and real-world requirements.

Climbing / Running / Hiking / Hunting series

Waterproof: Resist liquid water passing through, but allow water vapour to pass through. Their ability to block out rain and snow while allowing vapour from sweat to evaporate

Specializing in the production of regular size or special size for military uniforms

Anti-fouling: An outer layer woven from polyester and spandex, a PE separator and a base fabric woven from base fibers and spandex. The protective layer and the outer layer are joined by a tape. A protective layer is attached to the outer layer by a tape. Protects the fabric inside the protective layer and acts as an antifouling

Colour Fastness To Light(ISO 105-B02:2014) 5-6 Degree

Windproof: Good quality with fabric ensure the ability to protect warm from the wind

Croaking test: Wet croaking and dry croaking passed with 4-5 degree Detected by SGS(Test standard: GB/T 3920-208)

Template with 3D design, more comfortable when you wear

Anti-UV: The effects of UV degradation on materials that require a long service life can be measured with accelerated exposure tests. With modern solar concentrator technologies, it is possible to simulate 63 years of natural UV radiation exposure on a test device in a single year

Zipers can be made by YKK as customized.

Teflon's fabric is oiled without dip, it is water-repellent and does not seep and overcomes the contradiction between moisture permeability and oil-resistance and water-repellent. It has good ventilation and moisture permeability and is comfortable to wear.

Fabric composition: 100% Nylon

WE ARE FACTORY

POLIT JACKET

MA-1 includes three seasons, spring, Autumn, winter, when you are in the ground, open the front zipper, the temperature can be soon, and when the pilot fly, close the zipper, it will keep warm at once. In the 1960, ma-1 has a meaningful improvements, it is that change the inner fabric to orange color which is easy to notice and also add the pocket inside and double zipper. If there is some emergency, then the pilot escape, he just reverse the jacket to wear, then this pilot jacket looks like Emergency life vest. When in the good temperature and also Good visible circumstance, the pilot will soon be rescued easily, this is very important for the pilot, and it is also used until now.

+ fabric: 94%cotton 6%spandex , 200g/m²

Frog is shorter for flame-resistant operational gear:the reason why we call it frog as frog is soft.In Iraq,land force soldiers is tired of wearing anti-bullet vest in the bad circumstance, old MCCUU is been burden for soldiers. many land force soldiers buy the t-shirt and clothes which is better for breathable clothing and perspiration themselves. But it makes big problem for solders as when the solders are been hurt,the t-shirt will fire,then it will hurt their skin. so the government ask exports to design the anti-fire combat uniforms

- + Heavy Duty - The tactical belt is with a metal alloy buckle, it can bear a large pulling force.

SIZING INSTRUCTIONS

Using measuring tape, measure your body (not over clothing) and refer to diagram as a guide. If you fall between sizes, order the smaller size for a tighter fit or the larger size for a looser fit.

Men: Utilize your chest, arm length and neck measurements to determine the proper size for tops, outerwear or jumpsuits; utilize your waist measurement (where you wear your pants) for bottoms
