About Beishute

About Beishute

Beijing Beishute Maternity & Child Articles Co., Ltd. is a professional manufacturer in producing disposable hygiene products in compliance with the International Standards. The facility is established in 1994 and now is located in Miyun economic development zone in Beijing. The garden like factory covers 47000 m² with 8000 m² dust-free workshops.

Beishute has more than 20 high speed modernized production lines with capacity about 2 billion pieces of all kinds of sanitary and medical products per year. The products cover 6 ranges with more than 80 specifications, including Medical under pads, incontinence, maternity, baby care, feminine care and pet training pads series. Beishute registered brand “倍舒特” in Chinese and “Bestec” in English for both domestic and international market.

Beishute has an energetic sales team including logistics and service for domestic market. According to the AC Nielsen Investigation “倍舒特” Sanitary Napkins hold the Number 1 spot in the Northeastern Market and have been listed in the top 5 through Northern China.

To meet International demands of disposable health care products, Beishute set up a professional global sales team in 2003 and explored into the competitive, quality driven international market. Over ten years, Beishute clients are spread more than 30 countries, including U.S.A., U.K., Germany, Japan, Russia, Italy, Australia, etc. Beishute also established cooperation with several Fortune 500 companies in recent years and has become the Manufacture Base for some of the world famous Brands in the disposable hygiene field.

Beishute, your long term partner!
