COMPANY PROFILE

We are an integrated wood processing corporation specializing in wooden kitchenware like wood spoon, spatula, cutting board, rolling pin and so on. We were founded in 1995 and located in Feixian Linyi, Shandong Province, China. Our corporation has employees over 200 and 4 production lines that produce more than 8million products each year. Most of our products are sold to EURO (such as Sweden, Spain, Turkey, Italy, Germany), USA, Canada and Australia etc. Our products are mainly made in wood of Beech, Walnut, Birch and Poplar. Please see more product details on our web www.senxinwood.com. We also do product development according to the special requirement of our customers. Our core value is quality first, focusing on customer needs and continuously improving to be the best. We sincerely welcome to cooperate and develop business with us.
