Lumbar Support Back Cushion

Size: 34/32/12cm,
33/31/10cm,
32/31/10cm, etc

Lumbar Cushions are a kind of pillow specifically made to support the back. They take the tension felt by the ligaments and the muscles of the lower back when sitting or lying down. A support cushion promotes proper posture by serving as a guide to return the back to the S-shape it is accustomed to. It also removes the discomfort of having bad posture and the lack of support for the back.

Product Features:

- › Designed specifically for people with spinal pain, illness or disability.
- › Assists in the relief of back pain, Provides support for your lower back.
- › Promotes good posture and correct spinal alignment.
- › Includes removable and washable cover.
- › Portable and lightweight, Highly versatile and can be used at home, at work or when traveling.
