• COMPANY PROFILE

Established in 2008, UNIPOWER INTERNATIONAL GROUP LIMITED is large group with its focus on the research, production and sale of vehicle lighting.

Through 9 year's efforts, the UNIPOWER's unique designs and high-quality products have reached in international market an advanced level with the result that it has won more than 20 patents including International Profession Certifications of ISO9001 and ISO2000, European E-mark certification and CE RoHS certification etc.

The UNIPOWER's involvement in the field of auto intelligence is its exclusive selling in China of the famous Korean products, Easycar.

LED HEADLIGHT
6000LM

& Perfect Design &

NOT ONLY BRIGHTNESS BUT ALSO ILLUMINATION

PRODUCT FEATURE

STRONG PENETRATION FOR LONG RANGE (LUX = illumination = Concentration = LONG RANGE)

F2
Custom-made CREE technology

OTHER
CREE 4450 technology

MODEL:

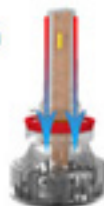

H1/H3/H4/H5/H6/H7/H8/H9/H10/H11/H12/H13/H14 (jet) H15/H16/H17/H18/H19/H20/H21/H22/H23/H24/H25/H26/H27/H28/H29/H30/H31/H32/H33/H34/H35/H36/H37/H38/H39/H40/H41/H42/H43/H44/H45/H46/H47/H48/H49/H50/H51/H52/H53/H54/H55/H56/H57/H58/H59/H60/H61/H62/H63/H64/H65/H66/H67/H68/H69/H70/H71/H72/H73/H74/H75/H76/H77/H78/H79/H80/H81/H82/H83/H84/H85/H86/H87/H88/H89/H90/H91/H92/H93/H94/H95/H96/H97/H98/H99/H100

High speed ball fan

Adopt the copper PCB board with heat conductivity coefficient up to 400W/mK, 5 times than other materials.

SMALL SIZE EASY INSTALL

Only 23.5 mm of heat sink apply to 95% cars.

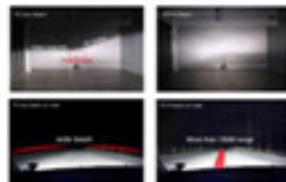

Enough space for heat dissipation after installation.

Perfect installation no effect for original construction.

Real light pattern

MINI Series

S1 PLUS

DUAL COLOR LED HEADLIGHT

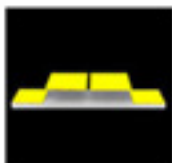

- ① CREE Multi-core Eutectic Technology.
- ② Strong penetrating for extreme weather like rain fog and snow.
- ③ No need any modification with original switch.
- ④ Non-polarity, More easier installation.

seoul KOREA SEOUL
SEOUL Y19

MORE FOCUSED

- ◆ New style 360° ,Socket adjustable.
- ◆ Non-polarity, More easy installation.
- ◆ Intelligent temperature control system.

The center brightness is 1 times brighter than the two sides.

More focus for center brightness.

Focused and long distance.

Cool white

Excellent lighting pattern and high brightness for good weather.

Golden light

Strong penetrability and good focused light for rain foggy and snowy day.

Switching method

High Low Beam.High beam with golden light,low beam with white light.

Single beam:

1.Keep lighting for 5 seconds at the first time,switch 3-5 times continuously to restore factory settings.

2.Continuous switching 2 times for color switching, mode switching needs to keep lighting on for more than 5 seconds.

3.With intelligent memory system, Automatic memory the color before the last turn off.

X5 LED HEADLIGHT

FAULKER ALL-IN-ONE DESIGN WITH CUSTOMIZED LED CHIP.
CAR LED HEADLIGHT WITH WIDE VOLTAGE AND CONSTANT CURRENT DESIGN.
WORKING VOLTAGE RANGE 9-32V.

EXCLUSIVE CUSTOMIZED CHIPS
HIGHER QUALITY LIGHT SOURCE TECHNOLOGY

Exclusive customized chips

No fan mini design
good for fog light

Ultra-thin base
for easier installation

Built-in intelligent
constant-temperature driver

★ OPTIONAL DIFFERENT COLOR TEMPERATURE ★

- Free DIY with 2 kinds of colorful film
- Different color temperature tube for different driving environment
- Make sure safe driving

High brightness low beam, it is 3 times brighter than halogen bulb.

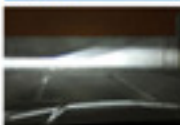

.....

SUPER BRIGHT 6000LM

Excellent lighting pattern. Concentrated light. High brightness. Long lighting distance.

Low beam

High beam

High beam lighting distance is beyond 300m.

★ AIRCRAFT LEVEL VII ALUMINUM HEATSINK ★

High standard aircraft Level VII aluminum with high heat conductive and quick heat dissipation performance. The heatsink is much more suitable for installation which is perfect for original headlamp housing.

Perfect combination of professional design heatsink and dust cap which can help to save more space.

★ INTELLIGENT INTERNAL DRIVER ★

American MPS new design intelligent control IC, highly-integrated, intelligent temperature control, automatic identification of car moving or stop status the current will be reduced to protect the LED bulb when car stopped and when driving the current will be adjust automatically depend on the LED bulb heatsink working temperature to make sure safe driving.

• PRECISION OPTICAL LIGHT DISTRIBUTION •

More compact new light distribution design with one step precision optical coating technology for plating mirror processing for high light efficiency and better light distribution. Excellent cut-line which meet with E11 light distribute standard.

Common market product

ALL IN ONE DESIGN STRUCTURE
HIGHLY INTEGRATED

No need external driver and excessive wires. Convenient installation, no need any modification of original car structure.

PRODUCT INFORMATION /

WORLD DEBUT

CREE innovation light source - special for auto lighting

USA CREE first for auto lighting

XD14*4 light source

Flexible Cooling Belt

Anti-radio interference

Aircraft grade aluminum heat sink

IP65

IP65 waterproof and dustproof

Easy installation

601 seconds instant start up

STRUCTURE

From start the item we chose perfect every step from light source bulb heat dissipation and so on wire based on the industry standard, at the same time beyond the standard to research safe, high brightness low consumption long lifespan high quality F1 led headlight

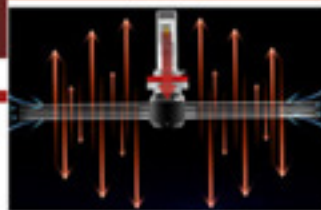

Aircraft grade superconduction aluminum heat conductivity coefficient is up to 170w/mk.

Aircraft grade aluminum nanometer grade heat radiation heat dissipation part Ensure to decrease the temperature speedily

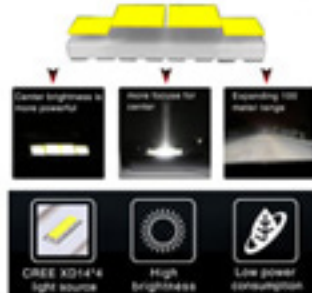

AIR CIRCULATION HEAT DISSIPATION DESIGN

Heat dissipation is difficult problem for led auto light we research and develop 4 layer high thermal conduction aircraft aluminum on our own to solve the problem reaching air circulation heat dissipation system The hole applied on the wing is helpful to expand the convection of hot and cool air achieving high heat density conduction and heat density conduction and heat dissipation The heat reduction of bulb decrease light decay to make the led light working stably

4 layer wing air circulation heat dissipation aircraft grade aluminum nanometer grade heat radiation heat dissipation part Ensure reduce the temperature speedily

3030 SMD CANBUS SERIES

- 1 UP TO 600 LUMENS OF LIGHT OUTPUT PER BULB
- 2.12PIECES OF 3030 SMD LED CHIPS ON EACH BULB
- 3 WELL ROUNDED LIGHT EMISSION FROM 5 LED PANELS TO IMPROVE EFFICIENCY BY UP TO 37%

Amber

Ice Blue

Lighting pattern is more gentleness
More brightness compared with others canbus led
Wider light-emitting area

Lower working temperature ensure long-lasting which up to 30,000 hours

SMD LED 3020 [CANBUS] SERIES

Built in constant current IC
can keep the current and voltage stable

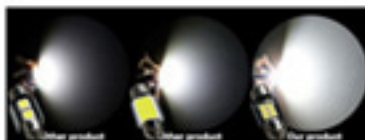

HOT-COLOR TARGETED WITH LEADING LM/\$ 3V LED

LUXEON 3020

FEATURES AND BENEFITS

High efficiency delivers superior lumen-maintenance
Flexible QFN SMC package delivers superior thermal properties and reliability
150 m-AWS micro-core bonding enables light color control
Hot-color targeted at 85 °C which leads to better color accuracy
Drive at max current for superior value

DUAL COLORS 3030SMD SERIES turn light/fog light

1. Steering synchronous with the original car.
2. Ultra-wide irradiation and ultra-high lumens.
3. With unique heat resistance and corrosion resistance of process design.

White & Amber SMD 3030 High power led bulb series

Use SMD patch of light source of PPA material
High luminous efficacy
Low heat resistance structure

Aluminum Circuit Board

Higher heat transfer efficiency
Fast thermal diffusion
Heat-resistant

Drive

With wide-range voltage and intelligent
constant current IC, no digital and
VHF radio signal interference

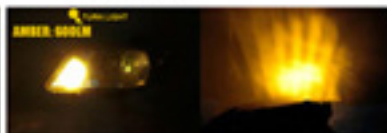

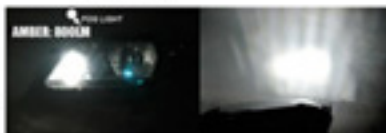

Solid Alloy Mold

High-effective heat dissipation
Corrosion resistance
Heat resistance

Glass Lens

High reflective concentrator
Efficient condenser
Stronger penetration

With waterproof ring, work well underwater

Constant current driver IC makes it non interference

To fix by screw to protect damaged under any case Stronger Stable

The lens fix by hole to prevent vibration

Largest heat dissipation tube with better performance

LED Ghost Shadow Light G4

Elegant exterior packaging, shockproof, dustproof

CREE LED SPECIAL CAR LOGO LIGHT

- 100% caribus error free
- No need to drill a hole & wireless
- Easy installation: plug and play
- Low power consumption
- Constant current
- OEM Packaging and custom logo available

High transmittance of the lens projection pattern more clearly

A perfect match with the original car interface

Using fire-resistant material PA6 GF30 car rules

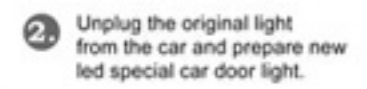

With super bright, high efficient, long life led source

Installation Steps

1. Use a screwdriver to gently pry out the original door light.

2. Unplug the original light from the car and prepare new led special car door light.

3. Connect the new led door light with original car plug and put it back to the car.

NEWEST NON-FADING CREE SPECIAL LOGO LIGHT

RGBW HALO RINGS:

- Crystal angel eyes
- Cotton angel eyes
- RGBW chasing halo rings

MAJOR NEW FEATURE:

- 1** Brightness adjustable
- 2** With user setting saving functionality
- 3** Each controller can control up to 2048 pixels
- 4** Support every kind of one-wire or two-wire LED-DRIVER-IC

RGBW E39 20W

LED Marker Angel Eyes

Wireless control color light

efficient color mixing and simplified design

CREE XLamp XM-L Color

Brightest, smallest multi-color LED of its class
Cree XLAMP XM-L color LEDs are the brightest and smallest multi-colored LEDs of their class, delivering red, green, royal-blue and white in one LED at twice the lumens-per-dollar of the MC-E color LED, reducing the distance between LED die to create a small optical source for excellent optical control, efficient color mixing and simplified design.

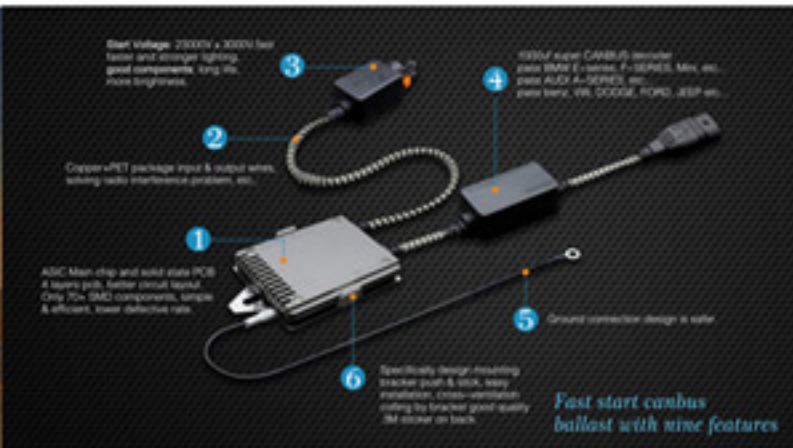

APP INSTALLATION

- 1** Scan QR CODE
- 2** Open in safari and download app
- 3** Link Bluetooth
- 4** Match the bluetooth signal with you phone after lamps lit up.
- 5** Open the app to control the color you want

Mature scheme comes from our constant improvement. After has gone through peaks and troughs, HID have come across success and failure since 2008. In the field of HID, UNIPOWER stick to high-end fast canbus with more than 8 times product upgraded. CN9 canbus HID ballast represents a new standard on design and performance, which fits for Jeep, Audi and VW. Faith of CHO60 2 years and lifetime warranty comes from our confidence to our products and approbation of our technology.

Rubber Cover for Headlamp

How to purchase according to different size? Pls check the following steps for your reference:

STEP 2

Choose a corresponding value according to the leather case offered by us. If the value you measured is 7.8cm, then you could choose the cover with 8cm. It is okay for the 1-2mm Data Error.

STEP 3

confirming the height, it is to make sure whether the length of the lamp holder you are adding can be covered. Every extension rubber for each size are marked with the height, you could evaluate whether it can be covered after purchasing.

STEP 1

Measure the inner diameter of the bulb location. The value must be subject to the outer diameter of the outside diameter of the headlight holes.

UNIPOWER INTERNATIONAL GROUP LTD.

公司简介

INTRODUCTION

UNIPOWER PROFILE

Established in year 2008, UNIPOWER INTERNATIONAL GROUP LIMITED is a large group with its focus on researching, manufacturing and selling vehicle lighting.

Through 10 year's effort, UNIPOWER's unique design and high quality products have reached international market level. And obtained more than 20 certificate including ISO9001 and ISO2000, European E-mark certification, and RoHS certification etc.

The first-rate equipment for production and advanced system of quality management offer customers great assurance in both quality and supply. In the future, Unipower will maintain dedication to car led research and provide best car led solutions in the market, also to the field of auto intelligence.

Unipower Culture

Strategic steps:

Values

➤ **Efficiency:**

1. Instantly response to customer's need.
2. Get everything done once.
3. Achieve fast and good results while ensuring quality

➤ **Innovation:**

1. Keep learning to maintain creative mind.
2. Keep improving and find a better way
3. keep pursuing for better results.

➤ **Responsibility:**

1. Go all out to fulfill our job.
2. Take responsibility for errors happen in jobs.
3. Take responsibility to make colleagues, team and company getting better and better

➤ **Sharing:**

1. Share Knowledge
2. Share Resource
3. Share achievement

➤ **All-win:**

1. Mutual benefit development between Unipower and customer.
2. Mutual benefit development between Unipower and employees
3. Mutual benefit development between Unipower and partners.

PRODUCTION WORKSHOP

Our factory covers the area of 4,5000 square meter, 2 Buildings , 3 floors. At this moment, we have more than 500 workers with 13 production line running.

Quality controll system

- 1> Test of raw material (all electrical components inspected)
- 2> Test of semi-finished products (test of electrical board)
- 3> 6 hours of aging test while semi-finished
- 4> 24 hours of aging test after encapsulation
- 5> Comprehensive inspection before stock

We supply more than 100,000 kits led headlight per month. We keep finished product more than 3,000 kits in stock for fast delivery.

After sales service

How to judge the defective item on bulbs or driver please do accordingly as flws:

1st Step:

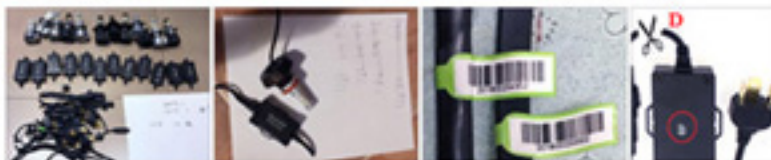

2nd Step:

Use another driver(from a good kit) to test that bulb, if the kit can light up, then driver faulty you can replace the driver only.

Use another bulb(from a good kit) to test that driver, if the kit can light up, then bulb faulty you can replace the bulb only.

3rd Step:

After testing the step 1 and step 2, if the kit couldn't be lighting yet, then both bulb and driver defective we will send them both as replacement.
