**Instructions**

- 1 Branches packed in Carton
- 2 Small tree package
- 3 Trunk package
- 4 Foundation installation
- 5 Install tree forking
- 6 Install branch
- 7 Power on and finished

**Instruction**

1. Take all parts out of the carton and unwrap the protective packaging.
  2. Build a stable cement base with iron stand, according to the tree's height, diameter range and anti-wind capability.
  3. Connect the bottom of the tree trunk's (A) power cord, always unplugging the item when installing or replacing it.
  4. Use the bolts to connect the trunk (A) to the base.
  5. Install the tree forking (B) to the trunk (A), fix using the large Allen key supplied, connect waterproof plugs (male to female) matching arrow to arrow.
  6. Attach the branches (C) to the tree forking (B), fix using the small Allen key supplied, connect waterproof plugs (male to female) matching arrow to arrow.
  7. Tree branches (C) are very flexible and can be shaped to the effect you want.
  8. Plug into mains.
- PLEASE NOTE:** If some of the lights are not working when the power is turned on please check that the plug for that branch is correctly connected (i.e. arrow to arrow).

**Installation notes**

1. For indoor and outdoor use.  
(Please note that the LED tree which is in white tree trunk / branches or include glass / acrylic decorations is for indoor use only.)
2. Before using or reusing, inspect product carefully. Discard any products that have cut, damaged or frayed wire insulation or cords or exposed copper wires.
3. Don't install the product under thunder & lightning storm or other extreme conditions.
4. Don't put the power cord in the water when installing the product.
5. When storing away the product after use, please disassemble the product in the reverse order from the installation notes above. Please avoid any unnecessary strain or stress on the products conductors, connections, and wires.
6. Always unplug this product before installing.
