Specification of fully automatic:

Rated productivity	28-30pcs/min with PLC
Raw material	150-360g/m ² one side PE/PLA coated paper,
Molding temperature	120-200°C
Air pressure	0.8Mpa
Air flow volume	1.08m ³ /min
Total power	3.3kw
Electrical supply	220V 50Hz
weight	350kg
Dimension	1300*880*1300mm
Size of box	Mold can changed to produce different size
Additional equipment	air compressor
Forming method	Heat sealing
Heat method	Heat pipe
Products size	Fold size width max 310mm, height max 50mm

MAIN SPARE PARTS:

reply	Electromagnetic proximity switch
AC contactor	motion switch
24v power	suction paper
Circuit breaker	cylinder forming
Solenoid valve	cylinder
Oil mist	button
separator	photoelectric sensor

FEATURES:

1. Mold can be changed, to meet many customers' requirements
2. Patented products.
3. The device has full-featured, stable performance, beautiful appearance, high-speed, environmental protection, low noise, easy to operate, easy to maintain closed mechanical structure, to ensure safe.
4. high pass rate, low waste

5. Automatic power-off function to protect the safety of operating personnel.
6. one button start to produce, easy to operate, high degree of automation, production stability, good consistency of equipment
7. Muti-machine combinations form of pipeline operations, saving labors.
8. the microcomputer count , it is clear and intuitive to know the production quantity.
9. single-heat pipe single-control, low power consumption
10. the composite molding technology, lunch boxes one time forming
11. it has equipment to stack box automatically.
12. it can choose PLC operating system, easier to operate, lower failure rate, higher stability.
