

Company profile

Shenzhen Ido Technology Co., Ltd. was founded on Sept. 9, 2009 in Longgang District of Shenzhen Municipality (an economically-leading city born with China's reform and opening-up policy). In response to the governmental appeal and under the guidance of green and environment-friendly, energy conservation and emission reduction, and technological innovation, we specialize in the R&D, production, sale and service of fine chemical products related to the care, maintenance and decoration of automobile system.

As a company emphasizing technological innovation, we boast four cutting-edge production lines for the mixing and filling of aqueous solution and oil solution products, along with two advanced production lines for the automatic mixing and filling of aerosol, capable of mixing and filling all sorts of tinplate can, aluminum can, PVC can, PE can and PET can, as well as mixing and filling of the automobile maintenance products of multiple specifications, diverse bottle designs and multiple calibers. Our annual production capacity is up to 30 million cans.

All the staff of our company engaging in the operation & management and scientific research & development have more than 15 years of experience in the production, R&D and service management of automobile maintenance products. Leading in the field of chemical products including energy-saving cleaning, emission reduction, abrasion resistance, condensation reduction and energy-saving protection, we have passed the certification of ISO 9001:2008, and very soon, ISO14000.

"Ido" means "Yes, I do" in English.

It is an extremely simple oral phrase. The reason we use it here for the brand is that we hope this could convey our pragmatism, confidence and seriousness towards things and people (no matter you are one of our customers, peers, suppliers, employees or just ordinary friends). This is our understanding of obligation in terms of the brand identity.

Ido being seen worldwide is our final mission and goal.

	<p>ID-8001 CARBURETOR CLEANER(450ml)</p> <p>The products adopts new American formula uniquely featured with powerful EEG penetrant and dispersing agent, effectively cleaning carburetor and choke to make them in the best operation state and enhance the force of combustion and explosion. the product will not damage the oxygen-sensitive components.</p> <table border="1" data-bbox="467 607 1468 714"> <thead> <tr> <th>Model</th> <th>G.W/(g)</th> <th>N.W/(ml)</th> <th>Carton Size/(cm)</th> <th>G.W/Ctn(kg)</th> <th>Package Specification</th> </tr> </thead> <tbody> <tr> <td>ID-8001</td> <td>405</td> <td>450</td> <td>36*28.5*21.2</td> <td>8.70</td> <td>450ml*20</td> </tr> </tbody> </table>	Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification	ID-8001	405	450	36*28.5*21.2	8.70	450ml*20

	<p>ID-8002 PARTS FOULING CLEANER</p> <p>The product is made with unique compounds including ID-B2 complex surfactant, effective agent and powerful penetrating agent. it can effectively remove various colloids, carbon deposits, oil dirt and adhesive sticker etc. It is applicable for cleaning the metal parts of automobile and power machines which are originally used by gasoline and carburetor. this product has wide applications and a special cleaning effect for various automobiles, mechanical equipment, engines and plastic processing equipment. it can yield twice the result with half the effort.</p> <table border="1" data-bbox="467 1498 1468 1646"> <thead> <tr> <th>Model</th> <th>G.W/(g)</th> <th>N.W/(ml)</th> <th>Carton Size/(cm)</th> <th>G.W/Ctn(kg)</th> <th>Package Specification</th> </tr> </thead> <tbody> <tr> <td>ID-8002</td> <td></td> <td></td> <td>36*28.5*21.2</td> <td>8.7</td> <td>450ml*20</td> </tr> </tbody> </table>	Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification	ID-8002			36*28.5*21.2	8.7	450ml*20
Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification								
ID-8002			36*28.5*21.2	8.7	450ml*20								

ID-8003 MULTI-PURPOSE FOAM CLEANER

The product is developed by adopting new American disinfection formula and imported raw materials.the product is featured with strong decontamination,disinfection,deodorization ,rapid effect and no need of water etc.It can reach a special effect in cleaning textile decorations,carpet,ceiling and velvet seat cover etc.after using it,the surface of articles will get bright and fresh.the product can play an obvious role in cleaning the household bathroom ceramics,painted wall,furniture,metal tools,carpet and textile decorations etc.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-8003	633	650	36*28.5*31	13.64	650ml*20

ID-8005 RUST REMOVAL AGENT(MOS2)

The product can enter the dead angle,differentiate and dissolve the dust,prevent the machine produce braking noise and ensure long-term operation of movable parts.it features anti-corrosion, anti-oxidation and quick penetration and will not have chemical reaction with metals.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-8005	385	450	36*28.5*21.2	8.46	450ml*20

ID-8004 ALL PURPOSE ANTI-RUST LUBRICANT

The product adopts brand-new American formula which can play a role in cleaning and lubrication,noise elimination,moisture removal,de-rust after penetration and metal rust prevention and protection etc.the product has extraordinary de-rust and lubrication effect,which allows it to rapidly loosen the screw,mechanical axis and other parts(components) that get stuck due to rust in the production line.it can be applied for multi-purpose and has become a necessary repair product for factory,repair factory,farm and family etc.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-8004	385	450	36*28.5*21.2	8.38	450ml*20

ID-8006 TIRE FOAM BRIGHTENER

The product is made up of unique high-molecular active components which can rapidly clean the dirt on the surface of tyre and play a role in protecting the tyre from getting hardened,cracked or faded in color.the product eliminates the need of wiping the tyre with a piece of cloth.the tyre will get bright and clean for a long time just by directly spraying the product on it.the product will get you easy to decontaminate,polish and protect the tyre in one step.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-8006	603	650	36*28.5*30	12.93	650ml*20

ID-8007 PITCH/TAR/ASPHALT CLEANER

The product adopts American new formula and is capable of cleaning asphalt,pitch prill,oil stain and dirt on the surface of automobile observably.the product is easily dispersed,has strong deterrentive power as well as quick and unique effects,does not damage the paint surface of automobile and leave any trace.after the asphalt quick detergent is used,a layer of protection film which enables your automobile to be bright and new is formed.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-8007	380	450	36*28.5*21.2	8.32	450ml*20

ID-8008 DASHBOARD WAX/ POLISH SPRAY

The product adopts new and advanced technologies and quality imported materials which can play a cleaning,polishing and anti-aging for vehicle dashboard,leather,seat cover,tyre,rubbery and bumper etc.the product can especially be used to clean and polish the surface of household appliance,computer,furniture and plastic products.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-8008	324	450	36*28.5*21.2	7.41	450ml*20

ID-8009 STARTING FLUID

The product adopts professional formula and special additives which enable the engine to start under any cold or humid environment(above -40℃) in a rapid and stable manner.the product is featured with easy use.rapid start,low ignition point,harmless to engine and no detonation,thereby preventing excessive losses and damages to storage battery and ignition components.the product can be applied to various gasoline and diesel engines of automobile,tractor and steamship etc.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-8009	330	450	36*28.5*21.5	7.26	450ml*20

ID-1001 ENGINE LUBRICANT&PROTECTION

The product use the advanced technology,and contains unique“ strong protection and repair factors” to avoid shortening the life due to early wear and tear of the engine,and applies to engines in run-in period and after overhauling.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-1001	350	325	37*26.5*20	8.49	325ml*20

ID-1002 ENGINE ANTI-WEAR PROTECTION

The product contains a “nano hydrocarbon protective film”,which directly acts on the metal surface of the parts and quickly repairs the wear surface.the unique nano feature oil film makes the metal surface solider,smoother.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-1002	352	325	37*26.5*20	8.49	325ml*20

ID-1003 SUPER ENGINE FLUSH

The unique and powerful formula of this product will effectively clean and decompose the carbon deposits,sludge,oxidant sediment and other harmful substances in the engine,and discharge through waste engine oil.the product is suitable for a variety of gasoline and diesel engine crankses.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-1003	310	325	37*26.5*20	6.58	325ml*20

ID-1006 ENGLINE OIL RELIVE/TREATMENT

The product adopts advanced synthetic viscosity improver and compound,with good low-temperature flow performance.after the product is added into the engine,it will completely mix with oil to keep the oil viscosity required for for lubrication.it can penetrate into the micro holes on the surface of components to form a protective film,which can effectively increase the pressure in the engine,enhance lubrication performance,reduce abrasion and prolong the service life of oil.the product can be effectively used together with the oil of any brand .

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-1006	352	325	36.5*29*15	7.04	325ml*20

ID-1007 ENGINE FLUSH(3minutes)

Ido engine flush adopts efficient cleaning formula which can rapidly and effectively clean the oil sludge,carbon deposit,jelly and oxydate in crankcase,piston,liner ring and oil circuit,eliminating the need of disassembling the engine.after using the product,the piston and liner ring will get more flexible and the lubrication system will get clean and smooth.the product can effectively enhance the operating efficiency of engine,reduce failures,increase horsepower and prolong the service life of engine.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-1007	385	443	36.5*29*17.5	8.50	443ml*20

ID-1008 ENGINE FLUSHING OIL

The product adopts the advanced EFHI special formula ,specially designed for cleaning the internal part of engine,enabling it to powerfully clean,rapidly break down,eliminate and wash away the stubborn dirt, carbon deposit and oxydate.it can be especially applied to the engine for which the additives are abused and oil with poor quality is used and which is not cleaned for a long time.the product can bring obvious cleaning effect not available with common agents for cleaning the internal part of the engine.the product includes special formula for protecting the engine form being damaged during the cleaning process.

Model	G.W/(g)	N.W/(L)	G.W/Ctn(kg)	Package Specification
ID-1008	3800	4	23.5	4L*6

ID-1009 ENGINE SURFACT CLEANER

The product is powerful cleaning agent,containing surfactant and remove factor,which is especially used to clean the part surface,which can hardly be cleaned by ordinary methods due to its complex cleaning forms.it can be used conveniently and form foams on the vertical surface to quickly remove the oil dirt,rust and scale.it will not damage the rubber under parts,plastic parts and oil paint.it features safe use method and can keep the engine body bright and clear.

Model	G.W/(g)	N.W/(ml)	G.W/Ctn(kg)	Package Specification
ID-1009	458	450	9.70	450ml*20

ID-2001 FUEL SYSTEM CLEANING PROTECTION

The product is a kind of efficient special compound,integrating cleaning,recovery,dispersion and protection,and can be used to recover the protect the fuel system of engine.the product can reduce the corrosion and abrasion of components,save fuel,effectively enhance the engine power,improve the start performance and enhance acceleration function,effectively reduce detonation and noises,reduce the discharge of tail gas and prolong the service time of three-way catalyst.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-2001	319	325	36*24.5*20	6.95	300ml*20

ID-2002 FUEL SYSTEM EFFICIENT CLEANER

The product uses a unique patented technology,which is new concentrated formula.it will protect the parts,rubber and seals in the cleaning process,and also has a lubrication effect.the product can be used to effectively remove the sediments in gasoline injector system,and restore the power performance of vehicles,make the fuel reach normal fuel ratio,effectively prevent the parts from corrosion and rust,and improve driving performance,eliminate unstable idle speed,restricted fuel supply and other failures in fuel system,improve the starting performance,acceleration,and power performance,prevent detonation,unstable idle speed and poor acceleration,extend the life of catalytic converters.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-2002	297	325	31.5*25.5*20	6.58	300ml*20

ID-2003 INDUCTION SYSTEM CLEANER

The product uses a unique patented technology, which is efficient and powerful new formula. In the highly efficient cleaning process, it will protect the mechanical parts, rubber parts and seals from corrosion, and also has a lubrication effect. This product applies to demolition-free cleaning of various engine intake systems. It can clear the sludge and carbon deposit quickly intake manifold and other places, increase the air intake and improve combustion efficiency, achieve the best oil and gas mixing ratio and restore engine power. Improve combustion, increase power, improve fuel consumption, and restore the idle speed to smooth, protect the components of the intake system, prevent corrosion and extend parts life, reduce the emission of CO, HC and other harmful gases.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-2003	310	325	31.5*25.5*20	6.72	300ml*20

ID-2004 CATALYTIC CONVERTER CLEANER

The product can effectively solve the problems of catalytic converters such as sulfur-phosphorus compound blockage, poor exhaust, power loss, increased fuel consumption, and shortened life. At the same time, it can be used to clear the carbon deposition and sludge in combustion chamber, intake valve, fuel injectors and other parts. It will reduce exhaust emissions and fuel consumption, improve power performance, restore the exhaust purification function of catalytic converters and extend its life.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-2004	375	360	36*28.5*21.2	8.50	360ml*20

ID-2005 THROTTLE VALVE CLEANER

The product can completely clean and protect the throttle valve assembly, rapidly clean carbon deposit, thereby preventing the occurrence of flameout and backfire, it can prevent the unstable idle speed and increased oil consumption incurred due to the carbon deposit, it causes no harm to the original coating film on the throttle valve of the vehicle and is safe to oxygen sensor. The product is applicable for gasoline and diesel engines.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-2005	319	300	30.5*25*21.5	6.89	300ml*20

ID-2006 SUPER-RUN GASOLINE ADDITIVE

The product is a synthetic gasoline additive capable of protecting and cleaning air intake system of engine.it is capable of preventing carbon deposition generating on air intake valve,branch pipe,spray nozzle and vaporizer.it contains an effective corrosion inhibitor capable of protecting oil tank,oil pipe and vaporizer from being corroded,the product have five super-strong functions of saving fuel,increasing power,eliminating carbon deposition,reducing discharge and prolonging service life.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-2006	236	250	28.2*22.5*21.9	6.56	250ml*30

ID-2007 DIESEL ANTI-GEL TREATMENT

The product is prepared by fuel oil jet plane and international advanced total-synthesis gasoline additive,the enhancer contains active mixing formula so as to promote octane value of the gasoline effectively,clea combustion chamber and have excellent performance of car engine.Ido octane value power enhancer can be safely used in all gasoline engines.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-2007	355	360	46.5*32*30	11.56	360ml*30

ID-2008 SUPER-RUN DIESEL ADDITIVE

The product is prepared by international advanced high-performance compound additive and capable of being mixed with diesel completely,after being added in fuel tank,the diesel synergistic additive can be completely mixed with the diesel so as to improve cetane number and combustion efficiency of diesel,meanwhile the diesel synergistic additive can remove colloid and deposit dirt occurring in the diesel engine and oil path effectively and ensure the best state of the engine performance.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-2008	380	400	31.5*29*21.8	7.8	400ml*20

ID-2012 SUPER-RUN FUEL ADDITIVE

The product is a synthetic gasoline additive capable of protecting and cleaning fuel system of engine.it is capable of preventing carbon deposition generating on fuel valve,branch pipe,spray nozzle and vaporizer,the product has five super-strong functions of saving fuel,increasing power,eliminating carbon deposition,reducing discharge and prolonging service life.the products is better than GB19592-2004 international standard.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-2012	408	80	46.5*32*30	11.56	80ml*6/box

ID-2009 SUPER-RUN OCTANE BOOSTER

The product is prepared by fuel oil of jet plane and international advanced total-synthesis gasoline additive.the enhancer contains active mixing formula so as to promote octane value of the gasoline effectively,clea combustion chamber and have excellent performance of car engine.the product can be safely used in all gasoline engines.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-2009	281	300	28.8*17.0*21.8	5.98	300ml*20

ID-2011 SUPER-RUN OIL TANK WATER REMOVAL

The unique additive components of super-run oil tank and oil circuit water removal agent can emulsify the moisture in the oil tank quickly,and then the moisture is uniformly dispersed in the gasoline,and finally the moisture is burned along the gasoline(diesel) and got rid of the oil tank.the parts of fuel systems are effectively kept in a better working state and prevented being corroded and rusted.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-2011	407	400	31.5*19*21.8	8.62	400ml*20

	<p>ID-2010 SUPER-RUN INJECTOR CLEANER</p> <p>The product is specifically prepared by the latest fuel spray technology and additive and mainly suitable for cleaning deposit(colloid,carbon deposit and so on) on the fuel spray nozzle of gasoline engine so as to improve the insufficient atomization of the fuel spray nozzle,accelerate sluggish and slow train chattering phenomena.</p> <table border="1" data-bbox="491 577 1469 689"> <thead> <tr> <th>Model</th> <th>G.W/(g)</th> <th>N.W/(ml)</th> <th>Carton Size/(cm)</th> <th>G.W/Ctn(kg)</th> <th>Package Specification</th> </tr> </thead> <tbody> <tr> <td>ID-2010</td> <td>284</td> <td>300</td> <td>28.8*17.0*21.8</td> <td>6.07</td> <td>300ml*20</td> </tr> </tbody> </table>	Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification	ID-2010	284	300	28.8*17.0*21.8	6.07	300ml*20

ID-5002 AUTOMATIC GEARBOX CLEANER

Fully synthetic formula,which is safe and efficient,do not require demolition,and the metal oxide sludge within the automatic gearbox can be thoroughly cleaned,extend the service life of automatic gear box,complete the cleaning of the automatic gearbox and re-filling in 10-20 minutes,and the replacement of oil in old automatic gearbox is up to 98%,apply to all brands of automatic and manual gearboxes.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-5002	310	300	36*24.5*20	6.95	300ml*20

ID-5003 AUTOMATIC GEARBOX PROTECTION

Generate a tough protective film on the metal friction surface in the gearbox to reduce power loss due to friction,highly efficient anti-oxidation,reduce oil temperature,noise,vibration,and ATF loss,prevent the gearbox trip,shift jitter,slow forward/reverse gear,and weak start and braking,have excellent fluidity at low temperatures,and form a better oil film protective layer at high temperatures,have excellent capacity in anti-corrosion and anti-sedimentation,protect the gasket,oil seals,spacer and gearbox components,restore their elasticity and flexibility,and prevent oil spills.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-5003	338	300	36*24.5*20	7.29	300ml*20

ID-5004 220 AUTOMATIC TRANSMISSION FLUID

The product is refined by adding high-quality hydrogenated oil into high-grade composite additive.it is recommended that the product is suitable for car,coach and light truck with automatic and manual gear shifting as well as power steering system conforming to Dexron-IID specification and performance.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-5004	955	1000	47.4*29*25.8	19.60	1L*20

ID-5005 320 AUTOMATIC TRANSMISSION FLUID

The product is refined by high-quality oil and import additive and conforms to the quality standards of GM Dexon III FORD Mercon, Allison C4.the product is suitable for automatic transmission of each kind of car,coach and light truck as well as power steering system .

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-5005	955	1000	47.4*29*25.8	19.60	1L*20

ID-5006 75W-90 GEAR OIL

The product is produced with synthetic base stock and state-of-the-art additive formula.the product is especially made for heavy-loading manual shift gearbox and rear axle which requires relatively high viscosity and excellent bearing capacity,applies to extensive operation temperature scope and might have extreme pressure and impact load during operation.75W-90 conforms to the quality classification standard for API GL-5 gear oil of American petroleum institute.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-5006	925	1000	47.4*29*25.8	19.37	1L*20

ID-5007 75W-90 GEAR OIL

The product is produced with synthetic base stock and state-of-the-art additive formula.the product is especially made for heavy-loading manual shift gearbox and rear axle which requires relatively high viscosity and excellent bearing capacity,applies to extensive operation temperature scope and might have extreme pressure and impact load during operation.75W-90 conforms to the quality classification standard for API GL-5 gear oil of American petroleum institute.

Model	G.W/(g)	N.W/(ml)	G.W/Ctn(kg)	Package Specification
ID-5007	1800	2000	19.00	2L*10

ID-5009 80W-90 GEAR OIL

The product is a kind of oil for standard double curved surfaces gear with good extreme pressure resistance and heat stability,it meets API GL-5 quality level requirements and can be applied to manual transmission drive system,rear drive shaft and other drive components of cars,passenger cars and business cars.the product is featured with good viscosity,anti-wear and extreme pressure,oxidation and heat stability,anti-corrosion and bubble resistance.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-5009	955	1000	47.4*29*25.8	19.96	1L*20

ID-5010 80W-90 GEAR OIL

The product is a kind of oil for standard double curved surfaces gear with good extreme pressure resistance and heat stability,it meets API GL-5 quality level requirements and can be applied to manual transmission drive system,rear drive shaft and other drive components of cars,passenger cars and business cars.the product is featured with good viscosity,anti-wear and extreme pressure,oxidation and heat stability,anti-corrosion and bubble resistance.

Model	G.W/(g)	N.W/(ml)	G.W/Ctn(kg)	Package Specification
ID-5010	1800	2000	19.00	2L*10

ID-5011 CVT SPECIALIZED TRANSMISSION FLUID

The product is specially developed for metal belt type CVT transmission system,can meet the performance requirement of a variety of models with belt type CVT.Apply of Japan,South Korea model of vehicle and some Germany models,imported composite additive specifically for research and development of metal belt type stepless transmission,excellent anti-wear performance can meet the needs of stepless speed change in all kinds of harsh working conditions,supplier extreme pressure,high temperature oxidation stability performance,extend the oil change period and provide better protection,A higher torque capacity and excellent balance of shake resistance.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-5011	1000	1000	37.5*27.5*20.0	15.70	1L*15

ID-4001 DOT-3 BRAKE FLUID

The product is prepared by advanced foreign technology matched with high-performance additive.the performance conforms to department of transportation DOT3,Japanese JISK2293 and GB12981-2003 HZY3 standards,so the product is suitable for hydraulic braking systems,such as each kind of import and domestic high-grade car,estate car and engineering vehicle,and the product is the ideal substitute of import product.

Model	G.W/(g)	N.W/(g)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-4001	870	800	37*36.5*25.5	18.33	800g*20

ID-4002 DOT-4 BRAKE FLUID

The product is prepared by advanced foreign technology matched with high-performance additive.the performance conforms to department of transportation DOT4, Japanese JISK2293 and GB12981-2003 HZY4 standards,so the product is suitable for hydraulic braking systems,such as each kind of import and domestic high-grade car,estate car and engineering vehicle,and the product is the ideal substitute of import product .

Model	G.W/(g)	N.W/(g)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-4002	880	800	44.3*31.5*25	18.64	800g*20

ID-4003 DOT-3 BRAKE FLUID

The product is prepared by advanced foreign technology matched with high-performance additive.the performance conforms to department of transportation DOT3, Japanese JISK2293 and GB12981-2003 HZY3 standards,so the product is suitable for hydraulic braking systems,such as each kind of import and domestic high-grade car,estate car and engineering vehicle,and the product is the ideal substitute of import product.

Model	G.W/(g)	N.W/(g)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-4003	550	500	36.5*29*19.5	11.52	500g*20

ID-4004 DOT-4 BRAKE FLUID

The product is prepared by advanced foreign technology matched with high-performance additive.the performance conforms to department of transportation DOT4, Japanese JISK2293 and GB12981-2003 HZY4 standards,so the product is suitable for hydraulic braking systems,such as each kind of import and domestic high-grade car,estate car and engineering vehicle,and the product is the ideal substitute of import product.

Model	G.W/(g)	N.W/(g)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-4004	550	500	39.5*25.5*20.5	11.54	500g*20

ID-4005 RESIN CHASSIS COATING

The product adopts special high-polymer resin that can form a special flexible and protective coating,which enables the product to reach an obvious effect of anti-rust,anti-erosion from rainfall,stone impact resistance,sound insulation and leakage blocking.to reach basic anti-rust effect,use4-6 cans(1Kg/can) of the product for one vehicle,to reach super sound-proof effect,use 10-12cans(1kg/can) of the product.

Model	G.W/(g)	N.W/(g)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-4005	1160	1000	35.5*27*27	14.85	1kg*12

ID-4006 WATER BASED CHASSIS COATING

The product adopts water-based environmental high-molecular polymer,which is not inclusive of organic solvent and not harmful to environment.the product is featured with excellent anti-rust and anti-corrosion performance,high solid concentration and good flexibility.in addition,it is non-flammable and can be easily operated and has become a most widely applied new anti-rust and anti-bump protective glue.to reach basic anti-rust effect,use4-6cans(1KG/can) of the product for one vehicle,to reach super sound-proof effect,use10-12cans(1kg/can)of the product.

Model	G.W/(g)	N.W/(g)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-4006	1093	1000	35.5*27*27	13.90	1kg*12

ID-4008 BRAKE DISC CLEANER

The energy-saving product produced by our company introduces the latest American non-toxic and green formula, adopts environment-friendly special solvents for non fluorocarbon compound that can rapidly clean the oil sludge on cylinder leather cup, brake disc and brake drum and the dust on the brake pad etc. securing good heat dissipation for the brake disc. the product does not include hydrochloric acid, CFCs and aromatic carbide etc. and can prevent the generation of asbestos powder and protect the cylinder leather cup from corrosion.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-4008	365	450	36*28.5*21.2	7.99	450ml*20

ID-4009 CHASSIS PROTECTIVE GLUE SPRAY

The products adopts special high polymer resin which can form a special flexible protective coating. the product can reach an obvious effect of anti-rust. rainfall erosion resistance, stone impact resistance, sound-proof and leaking stoppage.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-4009	445	520	36*28.5*26.5	9.50	520ml*20

ID-7001 POWER STEERING EFFICIENT CLEANER

The product can effectively clean the sludge and carbon deposit in the power steering system to avoid damaging the power steering system. clean the power steering system to avoid polluting the new oil change period and keep the power steering system clean.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-7001	217	180	36*24.5*17	5.10	180ml*20

ID-7002 POWER STEERING PROTECTION

The product can clean and lubricant the mechanical components in power steering system,and reduce noise,improve the performance of power steering fluid,and increase operating sensitivity and stability,reduce components wear,prevent acidification corrosion,and extend the life power steering system.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-7002	145	90	36*24.5*17	3.45	90ml*20

ID-9001 CONCENTRATED WINDSHILD CLEANER

The product uses Germany imported formula,nano water-based concentrated,specialized in cleaning the car windshield and rearview mirror,car doors windows,etc.quickly decompose to remove all kinds of dirt,oil,sticky dust,shellac,branch,bird droppings,thoroughly clean the glass surface,long glass transparent crystal.and can clean wiper, restore the original elasticity,prolong service life.at the same time this product can prevent mist effect of glass.view wider,driving safer.super concentrated,aromatic nature,long service life,wear-resisting, prevent mist.prevent aging deformation,self-cleaning,strong cleaning power eight efficacy,the sufficient reason why you choose us.

Model	G.W/(g)	N.W/(ml)	G.W/Ctn(g)	Package Specification
ID-9001	960	70	960g/box	70ml*12/box

ID-7004 POWER-ASSISTED STEERING OIL

The product is made of high quality base oil imported composite additives,suitable for all kinds of car power steering system and various heavy loaded carts,caterpillar vehicles,off-road vehicles hydraulic system and power steering system.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-7004	1000	1000	47.4*29.0*25.8	20.46	1L*20

ID-7005 202 POWER-ASSISTED STEERING OIL

The product is a kind of high performance steering oil for modern car,it can be used between-40 to 130,to ensure the hydraulic system in a trouble free operation under extreme temperature conditions.it with good low temperature fluidity,excellent oxidation stability and thermal stability.the product can be used for automobile steering device,hydraulic clutch,hydraulic equipment of car ceiling.more details please refer to user manual from car manufacturer.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-7005	1000	1000	47.4*29.0*25.8	20.46	1L*20

ID-7006 202 SPECIALIZED POWER-ASSISTED STEERING OIL

The product is a high-performance synthetic power steering fluid,applied in powertrain of modern cars.temperature range is between-40 to 130 ,make sure a trouble free operation under extreme temperature.it is a special product designed in accordance with the requirement of auto industry high technology.it is suitable for automobile steering device,hydraulic clutch device and hydraulic equipment of car ceiling.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-7006	1000	1000	37.5*27.5*20.0	15.46	1L*15

ID-6009 A/C REFRIGERANT R134A

1. refrigeration,synergy,lubrication,leak-detection,4 in 1.
2. Powerful anti-wear anti-wear,lubrication,cleaning function etc.more protect compressor and seal.
3. Enhance the heat dissipation efficiency of cooling system,and refrigeration function of air conditioner.
4. Improve the efficiency of the compressor,prolong the life of the compressor.
- 5.Prevent and check leakage malfunction accurately,it's widely used for all kinds of automotive air conditioner.

Model	G.W/(g)	N.W/(g)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-6009	350	250	43.5*36.5*15.5	10.20	250g*30

ID-6001 A/C REFRIGERANT R134A

The product adopts high-quality original materials with a purity of above 99.9%.the product has a good refrigeration effect and can be widely applied to automobile air conditioners and refrigerators.

Model	G.W/(g)	N.W/(g)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-6001	350	250	43.5*36.5*15.5	11.4	250g*30

ID-6002 A/C REFRIGERANT R134A

The product adopts high-quality original materials with a purity of above 99.9%.the product has a good refrigeration effect and can be widely applied to automobile air conditioners and refrigerators.

Model	G.W/(g)	N.W/(g)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-6002	310	210	43.5*36.5*15.5	10.20	210g*30

ID-6007 A/C DUCT CLEANER

The product adopts advanced formula specially designed for cleaning the duct in an air-conditioning unit.the product is not inflammable,explosive,water-free and with strong decontamination ability.it has strong ability to break down the oil dirt and oxydate on the automobile air conditioner generated due to variation in temperature and the abrasion of the components caused by long-term use.the product can reach an obvious cleaning effect an can be completely volatilized.after cleaning,the load of the air condition compressor will be lowered and the abrasion will be reduced,enabling the air conditioning system to run smoothly to reach maximum refrigeration effect,reduce maintenance cost and prolong the service life of air-conditioners.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-6007	500	443	35.5*29*16	9.95	443ml*20

ID-6006 A/C FROZEN OIL R134A

The product is 100% made with imported raw materials and features anti-wear,lubrication and cleaning.it can improve the refrigeration effect,reduce maintenance and prolong the service life of compressor and sealing.it has a high capacity of anti-oxidation and is not easily thickened and deposited.frequent oil replacement is not required.

Model	G.W/(g)	N.W/(ml)	G.W/Ctn(kg)	Package Specification
ID-6006	73	70	3.00/box	70ml*24/box

	<p>ID-6005 A/C FOAM CLEANER</p> <p>The product adopts brand-new European formula which can,eliminating the need of disassembling the air conditioning,remove the dust,oil dirt and other impurities in the air conditioning in a safe and rapid manner,thereby effectively reducing the energy consumption of air conditioning,improving refrigeration effect and prolonging the service life of air conditioning,in addition,the product can reach a good effect of disinfection and deodorization to make the air clean and fresh.</p> <table border="1" data-bbox="485 721 1469 831"> <thead> <tr> <th>Model</th> <th>G.W/(g)</th> <th>N.W/(ml)</th> <th>Carton Size/(cm)</th> <th>G.W/Ctn(kg)</th> <th>Package Specification</th> </tr> </thead> <tbody> <tr> <td>ID-6005</td> <td>535</td> <td>520</td> <td>35.2*27.2*26</td> <td>10.7</td> <td>520ml*20</td> </tr> </tbody> </table>	Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification	ID-6005	535	520	35.2*27.2*26	10.7	520ml*20

ID-3002 WATER TANK PROTECTION

The product adopts new German BASF technology and is made up of efficient metal corrosion inhibitors,antirust agents and dirt dispersion agents etc.the product have good anti-rust and anti-corrosion performance,which allows it to improve the heat transfer function of coolants,increase lubrication and maintain a long-term service life of water tank.the product can be used by mixing with anti-freezing solutions,coolants and water tank coolants etc.and can be widely applied to the cooling water tank of motor vehicles and water-cooling system of engine units etc.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-3002	393	325	35.5*29*16	7.8	325ml*20

ID-3003 WATER TANK LEAK-STOP

The product introduces international advanced technologies and natural plant fiber and is made up of efficient curing agent,anti-rust agent and anti-corrosion agent and anti-foam agent,which allows it to rapidly block the leakage occurring in water tank,radiator,cylinder,water pump,water seal,cylinder liner and other parts in cooling system.the product incorporates ultra-fine natural fiber which will not block the radiator air passage,cause no harms to components in cooling systems,has anti-rust and anti-corrosion function,can significantly prolong the service time of water tank and save the maintenance time and expenses.the product can be used by mixing with anti-freezing solutions and coolants.

Model	G.W/(g)	N.W/(ml)	Carton Size/(cm)	G.W/Ctn(kg)	Package Specification
ID-3003	372	325	35.5*29*16	7.90	325ml*20

ID-3004 WATER TANK COOLANT

The product can protect the cooling system of engine from corrosion,restrain the formation of limescale,prevent water tank overheating and reduce the evaporation losses.the product can be used by mixing with other coolants and anti-freezing solutions and can be widely applied to the cooling systems of automobiles,engineering machinery and internal combustion engine units etc

Model	G.W/(g)	N.W/(ml)	G.W/Ctn(kg)	Package Specification
ID-3004	2120	2000	21.5	2L*10

ID-3006 ANTI-FROZEN&RUST FLUID

The product adopts brand-new formula and is elaborately developed by quality ethylene glycol and imported antifoam agents,metal anti-rust agents,metal passivators,anti-corrosion and anti-rust additives,with good performance reflected in its low freezing point,high boiling point and powerful anti-corrosion,anti-rust and anti-dust capability.it can be widely applied to the cooling system of automobiles,tractor and internal combustion engines.the product free from nitrite and phosphate,can have a long-acting effect in protecting the water tank and cooling system.it belongs to the new generation of quality environmental product.

Model	G.W/(g)	N.W/(ml)	G.W/Ctn(kg)	Package Specification
ID-3006	2120	2000	22.30	2L*10

ID-3007 ANTI-FROZEN&RUST FLUID

The product adopts brand-new formula and is elaborately developed by quality ethylene glycol and imported antifoam agents,metal anti-rust agents,metal passivators,anti-corrosion and anti-rust additives,with good performance reflected in its low freezing point,high boiling point and powerful anti-corrosion,anti-rust and anti-dust capability.it can be widely applied to the cooling system of automobiles,tractor and internal combustion engines.the product free from nitrite and phosphate,can have a long-acting effect in protecting the water tank and cooling system.it belongs to the new generation of quality environmental product.
