Company Profile

Ningbo Zhenhai Jinjian autoparts factory is located at coastal city—Ningbo. The place which has beautiful natural scenery and is famous for many great men. Hangzhou Bay Bridge and Ningbo airport & deep-sea port provide good transportation condition for us and bring us into economic circle of Shanghai.

We are a manufacturer which specialized in wiper blade, with the capacity of designing, R&D, producing and selling. Besides, we have professional staffs who mastered high technology of this industry. Also, advanced production equipments and rigorous quality checking instructions have ensured the high quality of our products. Our factory has complete range of specifications— We supply all kinds of wiper blade include soft wiper blade, universal type wiper blade, special type wiper blade.

Our products have exported to America, Europe, Southeast Asia and so on. We reward our customers with continuous improvement and the best products and we use our advanced technology and high quality to build long-term stable cooperation relationship with every customer. We are working hard to be the leader in the industry.

Quality is the touchstone of every product, this is also the core value we treasure. We take the quality as our life and we build strictly quality control and management system. We import advanced production equipment and technology to ensure the quality improvement.

Sincerity is a concept and is also an essence. 'Work by heart, serving by heart' is Jinjian people's spirit. With the spirits: create with science, survive by the quality, we will supply high quality products and service base on the sincerity.
