▶ **New Technology_Anti-slip Coating**

- **We got some feedback from the user: the microfiber surface might be little slipping when dry, so an anti-slip coating is developed to improve grip.**
- **For places don't do hot yoga or with cold temperatures, you can choose to add it.**
- **The coating is transparent, will not impact printing/pattern.**

▶ Artwork tips:

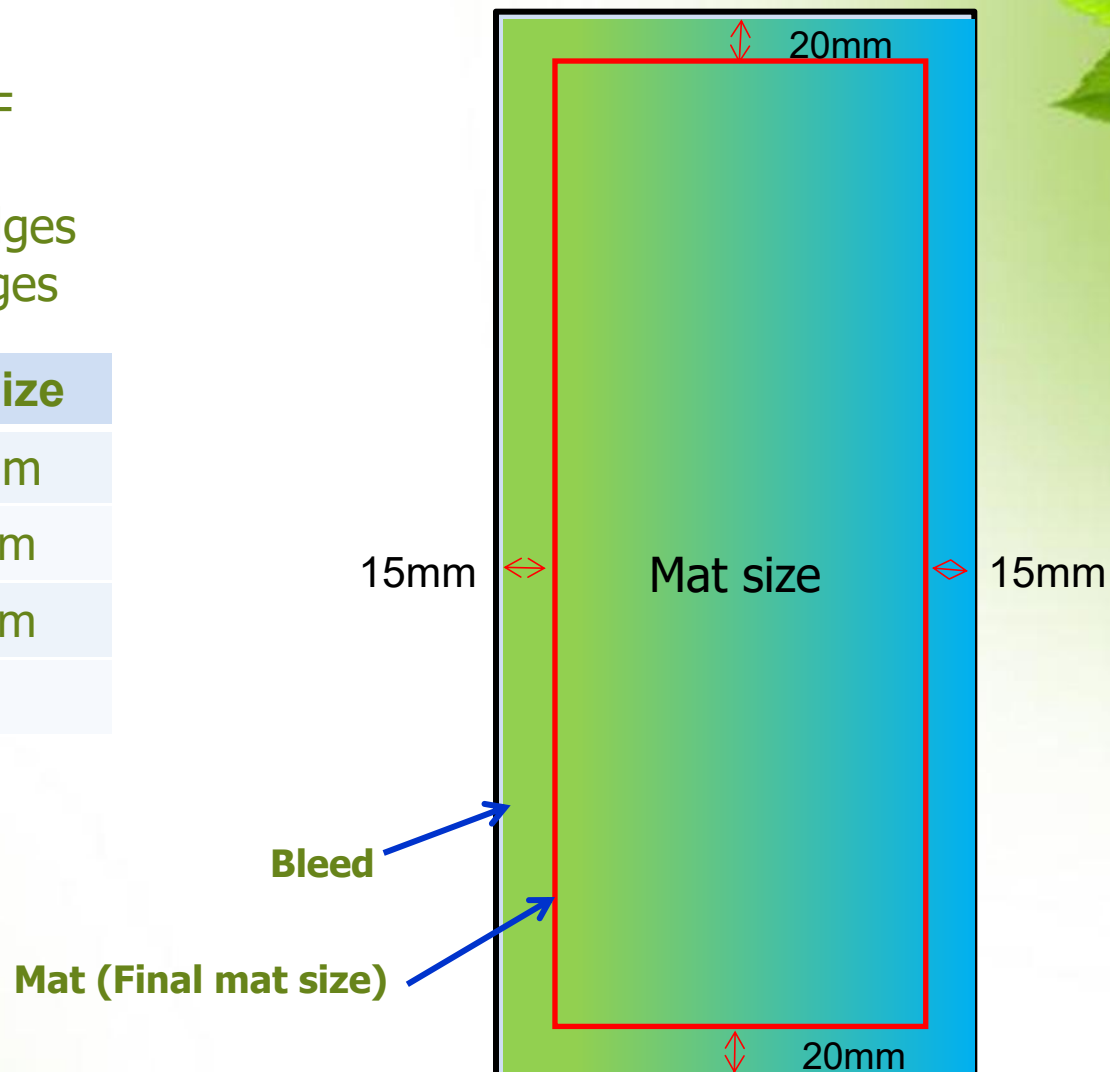

Color mode: CMYK

Format: AI/CDR/EPS/PSD/PDF

Resolution: > 300dpi

Bleed: add 20mm on short edges
15mm on long edges

Mat size	Artwork size
1730*610mm	1770*640mm
1780*610mm	1820*640mm
1830*610mm	1870*640mm
Φ1400mm	Φ1440mm

Honeyyoga

▶ Using Tips | Care Instruction | Storage

Using tips:

At the beginning of your practice, lightly spraying water on the top surface of the mat will prevent sliding, if you have dry hands and feet. The mat grips better the more you sweat!

Care instruction:

Hand wash: wipe with clean wet towel.

Machine washable: wash separate on gentle cycle in cold water (**no bleach**) along with detergent, hang to dry.

(DO NOT put in dryer)

To speed up drying, wrap mat in a towel and squeeze out excess water.

Storage:

Wrap the mat with printing side out, stored in cool and dry place when not in use, avoid sun exposure.
