Catalogue

- 1) Car cleaning kit 5 in 1
- 2) Plastic car cover
- 3) Plastic tire cover
- 4) Masking film & Masking paper for car & boat paint spraying, car maintenance, building ,etc.
- 5) Mixing cups & painting cups for car painting
- 6) PE gloves

Car cleaning kit 5 in 1

Including:

1. Plastic seat cover 1300mm*800mm 13g/18g/20g
2. Plastic steering wheel cover 600mm*100mm*0.02mm
3. Plastic gear shift cover 14cm*16cm*0.02mm
4. Plastic hand brake cover 14cm*16cm*0.02mm
5. Paper floor mat 38cm*50cm 80g/m² paper, print "feet"

Material: LDPE/HDPE

Color: transparent/milky white

Packing way: 100 kits/box, 4 boxes/Carton

Car cleaning kit 5 in 1

Usage:

Protect the car steering wheel, car seat, hand brake, gear shift and car floor from contamination. Keep the car interior clean. 5 pieces/pack, easy to use, environmental and economical.

Application:

Widely used in large auto dealerships, 4S Shops, auto detailing centers, auto repair shops, etc.

Plastic car seat cover

Material : LDPE/HDPE

Thickness : 6/10/13/15/18/20 μ

Specification : 80cm*130cm/1460 (1030+430) *800mm

Color : Milkywhite , transparent/can print customer's logo

Packing : 100pcs/ 200pcs / 250pcs/roll/carton

Note: Can be customized according to customer's requirement.

Usage:

Protect the car seat cover from polluting, keep the car seat clean , easy to use, environmental and economical, single pocket/ 2pockets, prevent the oil ,dust and moisture .

Application:

Widely used in large auto dealerships,4S Shops, auto detailing centers, auto repair shops,etc.

Plastic steering wheel cover

Material : LDPE

Thickness : 0.02mm/0.03mm

Specification : 600mm*100mm

Color : Milkywhite , transparent / can print customer' s logo

Packing : 250pcs/box , 8boxes/Carton/250pcs/box , 2boxes/Carton.

Usage:

Protect the car steering wheel from polluting, keep the car steering wheel clean , easy to use, environmental and economical. Elastic could fix the cover on car better .prevent the oil ,dust and moisture

Application:

Widely used in large auto dealerships,4S Shops, auto detailing centers, auto repair shops,etc.

Plastic gear shift cover

Material : LDPE

Thickness : 0.02mm

Specification : 14cm*16cm

Color : Milkywhite/Transparent

Packing : 500pcs/box , 10boxes/Carton

Usage:

Protect the car gear shift from contamination , keep the car gear shift clean , easy to use, environmental and economical. Elastic could fix the cover on car better .Prevent the oil ,dust and moisture

Application:

Widely used in large auto dealerships,4S Shops, auto detailing centers, auto repair shops,etc.

Plastic hand brake cover

Material : LDPE

Thickness : 0.02mm

Specification : 14cm*16cm

Color : Milkywhite/transparent

Packing : 500pcs/box , 10boxes/Carton

Usage:

Protect the car gear shift from contamination , keep the car gear shift clean , easy to use, environmental and economical. Elastic could fix the cover on car better .Prevent the oil ,dust and moisture

Application:

Widely used in large auto dealerships,4S Shops, auto detailing centers, auto repair shops,etc.

Kraft paper foot mat

Material : Kraft paper 100g/m² + film 15g/m² / Kraft paper 80g/m² + film 13g/m² Kraft paper 60g/m² + film 10g/m²

Specification: 530*420mm/380*500mm

Color : White

Packing: 1000pcs/Carton/3000pcs/Car ton

Note: Can be customized according to customer's requirement.

Kraft paper foot mat

Usage:

Protect the car floor from contamination , keep the car floor clean , easy to use, environmental and economical. Its back has antiskid function, can prevent the water,oil,dust and moisture.

Application:

Widely used in large auto dealerships,4S Shops, auto detailing centers, auto repair shops,etc.

Plastic foot mat

Material : HDPE

Thickness : 0.045mm

Specification : 530mm*420mm

Color : Milkywhite with logo

Packing : 500pcs/roll/Carton

Note: Can be customized according to customer's requirement.

Plastic foot mat

Usage:

Protect the car floor from contamination , keep the car floor clean , it has dotted line and easy to use, environmental and economical. It can prevent the water,oil,dust and moisture and avoid high cost of cleaning.

Application:

Widely used in large auto dealerships,4S Shops, auto detailing centers, auto repair shops,etc.

Plastic car cover

Material : HDPE /LDPE

Thickness : 30 μ

Specification :

3.5M*6M/3.8M*6.6M/4.8M*7.5M

Color : Transparent

Packing : 20pcs/Carton

Plastic car cover

Advantages:

After painting, the car cover can effectively protect the car surface from polluting. The elastic can fix the cover on car better ,very convenient and easy to use .It is also dustproof and rainproof ,can be reused, environmental and economical.

Application:

Widely used in large auto dealerships,4S Shops, auto detailing centers, auto repair shops,etc.

Plastic tire cover

Material : HDPE/LDPE

Thickness : 22-40mic

**Specification : 760*1100mm M100/850*1150mm
M100/950*1250mm M100**

Color : transparent/milkywhite/can print logo

Packing : 100pcs/box,4boxes/Carton ,200pcs/roll

Note: Can be customized according to customer's requirement.

Advantages:

Keep the tire clean, it has dotted line and easy to use.It can protect the tire and the rim when repairing the car .

Environmental and economical.

Application:

Widely used in large auto dealerships,4S Shops, auto detailing centers, auto repair shops,etc

Automotive body making film

Material : HDPE

Thickness : $\geq 8\text{MIC}$ - 11MIC

Specification :

**1.9M*300M/3.8M*200M/4M*150M/4.8M*150M/
5M*150M/6M*100M/8M*100M/4M*200M/4M*3
00M/5M*120M/4M*125M**

Color : Milkywhite/Transparent/Blue,etc.

Packing : 1roll/bag/1roll/carton

**Note: Can be customized according to customer's
requirement.**

Automotive body making film

Advantages:

100% new

HDPE, safe, nontoxic/odorless/environmental.

It can resist corona treatment up to 120°C, absorb paint, and prevent secondary pollution of automobile surface.

Electrostatic treatment, auto absorption body, improve work efficiency. Prevent penetration, corrosion and other contamination. Small size and easy to carry.

Application:

Widely used in automotive industry, such as large auto dealerships, 4S Shops, auto detailing centers, auto repair shops, etc

Pre-taped masking kraft paper

Material : 35g/36g kraft

**Specification : 150mm*20m/ 200mm*20m
/300mm*20m /450mm*20m /550mm*20m**

Color : Brown

Packing: can be customized according to customer's requirement.

Advantage:

Strong tearing resistance,environmental ,nontoxic and odorless.It can prevent paint penetration,corrosion and other contamination,save more time and labor cost.

Application:Widely used in automotive industry such as large auto dealerships,4S Shops, auto detailing centers, auto repair shops,etc.and also for the shipbuilding industry,indoor or outdoor decoration.

Pre-taped Masking Magnetic Paper

Material : 41g magnetic paper

Specification : 150mm*20m/ 200mm*20m
/300mm*20m /450mm*20m /550mm*20m

Color : white

Packing:Can be according to customer's requirement.

Advantage:

Strong tearing resistance,environmental ,nontoxic and odorless.It can prevent paint penetration,corrosion and other contamination,high-efficiency work.

Application:Masking non-painted area painting.Widely used in automotive industry ,the shipbuilding industry,the building and indoor or outdoor decoration .

Masking Magnetic Paper

Material : 41g magnetic paper

Specification : (30cm-90cm)*200m

Color : white

Packing : 1roll/bag

Feature:

Strong tearing resistance,environmental ,nontoxic and odorless.It can prevent paint penetration,corrosion and other contamination,high-efficiency work,save labor cost&time to do paint protection work.Used for preventing the large area painting and different paint in nature.

Application:Widely used in prevent the paint from the car,the ship, the train, the furniture and other products ,it is also used in indoor and outdoor decorating.

Masking kraft paper

Material : 36g Kraft paper

Specification : (30cm-90cm)*200m

Color : Brown

Packing : 1roll/bag

Advantage:

Feature:

Strong tearing resistance,environmental ,nontoxic and odorless.It can prevent paint penetration,corrosion and other contamination,high-efficiency work,save labor cost&time to do paint protection work.Used for protecting large area while painting and prevent different paint in nature.

Application:Widely used in preventing the paint from the car,the ship, the train, the furniture and other products ,it is also used in indoor and outdoor decoration.

Cloth taped masking film

Material : HDPE

Specification :

300mm*25m/550mm*25m/1100mm*25m/1400mm*25m/1800mm*25m/2700mm*25m/3600mm*25m

Color : can be according to customer's requirement .

Packing : 60rolls/carton/30rolls/carton

Note : can be according to customer's requirement .

Cloth taped masking film

Advantage:

The cloth tape has good viscosity, it is waterproof, ultraviolet-proof, and electrostatic. It also can easily cling to the rough surface of the wall, easy to tear, simple operation, save time & labor cost.

Application:

It is used for masking the building and other protection in harsh environment or other special requirements.

Washi-taped masking film

Material : HDPE

Specification :

300mm*25m/550mm*25m/1100mm*25m/1400mm*25m/1800mm*25m/2700mm*25m/3600mm*25m

Color : Can be according to customer's requirement.

Packing : 60rolls/carton/30rolls/carton

Note : Can be according to customer's requirement.

Washi-taped masking film

Advantage:

The washi tape is waterproof, ultraviolet-proof and electrostatic, it also has a good adhesion to the bending place and the corner of the surface, can be removed easily without glue left, easy to use and to tear, electrostatic, good adsorption, can emboss the printing on the film.

Application:

It is used for building painting and automobile repair, also can effectively protect the furniture, the floor, the wall from polluting by the paint.

Crepe-taped masking film

Material : HDPE

Specification :

300mm*25m/550mm*25m/1100mm*25m/1400mm*25m/1800mm*25m/2700mm*25m/3600mm*25m

Color : Can be according to customer's requirement.

Packing : 60rolls/carton/30rolls/carton

Note : Can be according to customer's requirement.

Crepe-taped masking film

Advantage:

The washi tape is waterproof, ultraviolet-proof and electrostatic, it also has a good adhesion to the bending place and the corner of the surface, can be removed easily without glue left, easy to use and to tear, electrostatic, good adsorption, can emboss the printing on the film.

Application:

It is used for building painting and automobile repair, also can effectively protect the furniture, the floor, the wall from polluting by the paint.

Plastic paint mixing cups

Material : PP

Specification : 400ml/600ml/1000ml

Color : Transparent

Packing: 400ml:50 inner cups/bag 2bags/boxes , 10boxes/Carton

600ml : 50inner cups/bag 4bags/box , 6boxes/Carton

1000ml : 100inner cups/bags 2bags/box , 10boxes/carton

Note:Cup holder and plastic paint stirrer can according to customer's requirement .

Advantage: Transparent cup body with accurate calibration and ratio, the cups can be used together with the cup holder.

Application: Used for car painting, mixing the paint.

Spray Mixing cup

Material : PP

Specification : inner cup 400ml/650ml/850ml,outer cup 650ml/850ml

Color : Transparent

**Packing : Inner cups:50inner cups
+ 50Lids+ 20plugs/carton**

**Outer cups:50outer cups+50black
collar/carton.**

Note: Can be according to customer's requirement.

**Feature: Fits to the spray guns,reusable and easy
replacement ,high-efficiency work,economical with the
inner cup .**

Including :Outer cup、 inner cup、 lid and plug.

**Application:Car body painting and refinishing,can be
used together with the spray guns.**

PE gloves

Material : HDPE/LDPE

**Specification : 0.4g/0.5g/0.6g/0.7g/0.8g/0.9g/1g
/1.1g/1.2g/pc**

Color : Transparent

Packing : 100pcs/bag,100bags/Carton

Advantage: Protect our hands and also keep our hands clean while avoid polluting the food.easy to use, environmental and economical.

Application: Widely used in household cleaning,gardening, food, hair dyeing, nursing ,washing, dining and so on.
